PROFESSIONAL SUMMARY

An ambitious and detail-oriented professional seeking a challenging role in a dynamic environment. Driven to leverage technical and operational skills to contribute directly to organizational success, while continuously expanding practical expertise and developing new competencies to support career growth.

PROFESSIONAL EXPERTISE & CAPABILITIES

- **Security & Entry Operations:** Experienced in security guards management, organizing entry and exit protocols, crowd control, and ensuring a safe environment for visitors and staff.
- **Cashier & Financial Transactions:** Skilled in managing Point of Sale (POS) operations, processing payment transactions with high accuracy, and performing daily cash reconciliation.
- **Customer Service & Visitor Relations:** Adept at welcoming guests, answering inquiries with high professionalism, resolving immediate customer issues, and delivering excellent visitor experiences.
- **Data Entry & Administrative Tasks:** Capable of performing fast, accurate data entry and maintaining organized digital records using Microsoft Office Suite (Word, Excel, PowerPoint).
- **Web Development Basics:** Practical foundation in building clean web interfaces using modern front-end technologies including HTML, CSS, and JavaScript.

KEY STRENGTHS

- Proven capacity to handle high-pressure peak hours with calm and efficiency.
- Strong commitment to punctual attendance, task organization, and team goals.
- Fast learner adaptable to new organizational software and operational procedures.
